Allowable Subject Matter

- 1. Claims 1-7, 9-17, 19-27, 29-30 allowed.
- 2. The following is a statement of reasons for the indication of allowable subject matter: Prior art of reference fails to teach adjusting a resolution of a 3D model and rendering a shadow having the adjusted resolution of the 3D model while concurrently rendering the 3D model at a resolution that is higher than the adjusted resolution. Herndon et al (Interactive Shadows) teaches projecting the shadow of a 3D object and then alternating different geometries for the shadow. However, Herndon et al does not disclose adjusting the 3D object's resolution and then projecting this resolution and then rendering the 3D object's resolution at a higher resolution concurrently. Maya complete 2 teaches changing the resolution of the shadow pixels for specific resolution of the 3D object (page 619). However, this is with the pixels not the projecting elements as used in the applicant's system.
- The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
 Herndon et al., (Interactive Shadows); MAYA complete 2.
